

ARTIFICIAL EXPANDING TRELLIS INSTALLATION INSTRUCTIONS

HARDWARE SUPPLIED

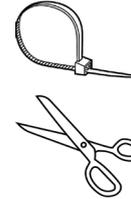

TOOLS REQUIRED

For drywall, concrete or a fence:

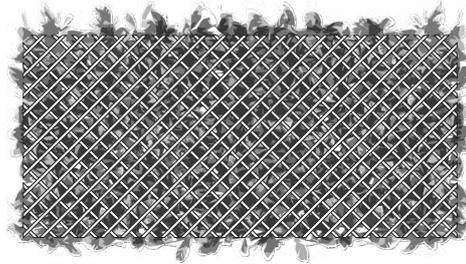

For wire or mesh:

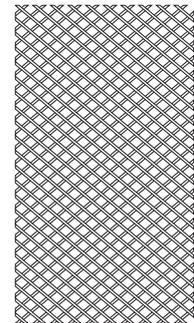

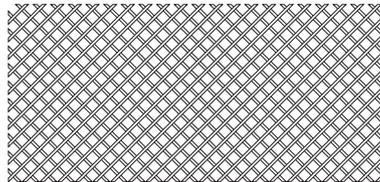

STEP 1

Before you buy your Hedging product from our stockist, measure your space to calculate how much you need

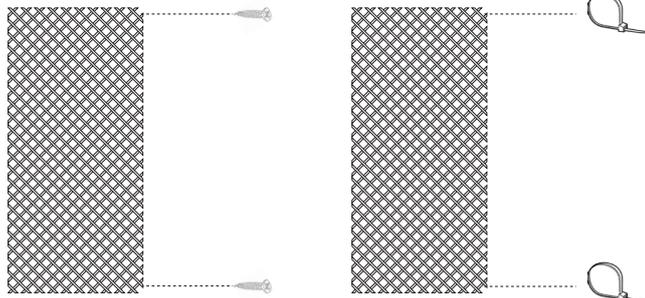

STEP 2

Unpack your product.
Align your Trellis and determine if Horizontal or Vertical is the best for your layout.

STEP 3

Gather your tools.
For drywall, concrete or a fence, you will require nails, a hammer and/or screwdriver.
For wire or mesh, you will require cable ties and scissors.

STEP 4

Nail, staple, tie or hang your Trellis to the wall, fence or other surface, making sure it is firmly secured. Please share your inspiring Hedge images through our instagram page.
